PRODUCT INFORMATION

Zerust[®] ICT[®] Vapor Capsules are easy-to-use, portable capsules that contain patented Zerust[®] ICT[®] corrosion inhibiting technology. The Vapor Capsules work in enclosed spaces to emit vapor corrosion inhibiting molecules that settle on and protect metal surfaces.

Targeted Multimetal Protection

Zerust[®] ICT[®] Vapor Capsules can be easily affixed to most surfaces with their peel-adhesive backing. Use Vapor Capsules to protect multiple metal types from corrosion in almost any enclosure. Or use as a supplement to other Zerust[®] ICT[®] packaging products for added protection. Zerust[®] ICT[®] Vapor Capsules are ideal for use in electrical cabinets since they leave no residue on contact surfaces.
