

Zerust® ICT™ 504-LM Film

TECHNOLOGY THAT PROTECTS METAL FROM CORROSION

PRODUCT INFORMATION

FEATURES

- Proven corrosion protection
- Easy-to-use
- Lowers Water Vapor Transmission Rate
- Non-toxic
- Recyclable

BENEFITS

- Reduce corrosion incidences
- Protect high risk applications
- Save money & resources
- Comes with Zerust® global on-site support

Zerust® ICT™504-LM Film is an advanced corrosion protection film made with patented Zerust® Integrated Corrosion Technologies™ (ICT™). Zerust® ICT™504-LM Film provides significantly elevated corrosion protection for iron and steel while *dramatically lowering* the Water Vapor Transmission Rate (WVTR) of the package (30% reduction on average). The lower the Water Vapor Transmission Rate, the less moisture seeps through the package and onto metal parts (excess water in the pack can accelerate corrosion). Zerust® ICT™504-LM Film is a comprehensive corrosion protection solution for a broad range of high-risk applications.

Zerust® ICT™504-LM Film is ideal for extended storage, international shipments, or any applications requiring long-term corrosion protection under harsh climatic stress conditions.

APPLICATION EXAMPLES

AN AUTOMOTIVE PART INSPECTED AFTER OVERSEAS SHIPMENT. THE PART WAS PROTECTED FROM CORROSION DAMAGE BY ZERUST® ICT™ 504-LM FILM.

By lowering the water vapor transmission rate of the package, Zerust® ICT™504-LM Film prevents even "normal" levels of moisture from seeping through the package and causing corrosion.

EXPORT SHIPMENT

LONG-TERM STORAGE

INVENTORY STORAGE

APPLICATION TYPE

CORROSION PROTECTION FOR:

ORDERING INFORMATION

■ CONFIGURATIONS

Bags, sheeting

■ SIZE RANGE (WIDTH)

20" - 100"

■ THICKNESS

2 - 8 Mil

■ COLOR

Yellow is the standard color of ICT™504-LM Film. Custom colors available upon request.

■ PROTECTION TYPE

Ferrous corrosion protection capability (cast iron, iron, steel).

■ PROTECTION LIFE

Will protect metals for up to 5 years if properly packed and stored.

■ SHELF LIFE

Shelf life of 2 years if stored at 85° F or less, out of direct sunlight and in original packaging.

ICT™500 SERIES OVERVIEW: PACKAGING FILM PRODUCTS

We offer a full range of products for all types of situations.

Choose by corrosion protection abilities.

Choose by physical protection abilities.

Find the product that best fits your needs.

We make a variety of products that are right for your specific situation. For more information about the various products listed above, please visit our web site at www.zerust.com or contact us at +1 (763) 225-6600.

OTHER PRODUCTS AVAILABLE

ICT™ 700 Series: Liquid Additives and Coatings

Temporary corrosion protection for parts in-between production processes, during storage or for added protection to the ICT™ 500 series products during ocean shipments.

ICT™ 800 Series: Diffusers

Self-contained, portable products that diffuse Zerust® ICT™ chemicals to protect metals within enclosures, such as tool boxes, electrical boxes, etc.

This product is recyclable. Please consult federal, state and local regulations.
