

Zerust[®] ICT[®]420-35P VCI Poly Kraft Paper

TECHNOLOGY THAT PROTECTS METAL FROM CORROSION

PRODUCT INFORMATION

Zerust[®] ICT[®]420-35P is a polyethylene coated VCI kraft paper with proprietary Zerust ICT formulations contained within the polyethylene coating (coating on one side of sheet only). Zerust VCI Poly Kraft Paper provides powerful corrosion protection to ferrous metals such as iron, cast iron and steel. Test before use on copper and brass.

Due to its 1 mil Zerust ICT polyethylene coating, it provides the additional benefits of increased tear resistance and moisture resistance along with the versatility of paper and powerful Zerust corrosion protection.

Zerust ICT420-35P Poly Paper is currently used to protect a broad range of industrial products including automotive power train parts as well as electrical components during shipment and storage. Use Zerust VCI Kraft Poly Paper in interleaving applications, to wrap metal materials for shipment or storage, or in any other application where a packaging paper would be used.

ZERUST ICT420-35P POLY PAPER PROTECTS
FERROUS METALS FROM CORROSION DAMAGE.

FEATURES

- Proven corrosion protection
- Easy-to-use
- Tear Resistant
- Recyclable

BENEFITS

- Reduce corrosion incidences
- Improve shipment yield rates
- Save money & resources
- Comes with Zerust global on-site support

Zerust[®] ICT[®]420-35P Poly-Paper provides powerful corrosion protection yet is more resistant to tears and rips than standard packaging paper.

APPLICATION TYPE

CORROSION PROTECTION FOR:

ORDERING INFORMATION

■ AVAILABILITY/PART NUMBER

36" x 200 yard rolls: 300-F-00002
Also available in cut sheets. Please call for size and price information.

■ WEIGHT

High-quality 40# paper

■ COLOR

Brown / Natural

■ PROTECTION TYPE

Ferrous corrosion protection capability. Test before use on copper and brass.

■ PROTECTION LIFE

Six-month protection life when stored outside and properly protected from moisture and other environmental elements. Twenty-four months or more for inside dry storage.

■ SHELF LIFE

Shelf life of 2 years if stored at 85° F (29° C) or less, out of direct sunlight and in original packaging.

ICT®400 SERIES OVERVIEW: PACKAGING PAPER

Product Name	Protection Type	Construction	Weight	Printing
Zerust ICT420-35	Multimetal	Kraft Paper	35#	Yes
Zerust ICT420-35P	Ferrous	Poly Coated Paper	40#	No

OTHER PRODUCTS AVAILABLE

ICT® 500 Series: Packaging Films

Our most widely used series of products. A variety of films offer short or long-term corrosion protection for parts and equipment during storage or shipment.

ICT® 600 Series: Rust Removers

Highly effective rust removers for light to severe rust removal. All ICT®600 series rust removers are non-toxic, non-hazardous & non-corrosive.

ICT® 700 Series: Liquid Additives and Coatings

Temporary corrosion protection for parts in-between production processes, during storage, or for added protection to the ICT® 500 series products during ocean shipments.

ICT® 800 Series: Diffusers

Self-contained, portable products that diffuse Zerust® ICT® chemicals to protect metals within enclosures, such as tool boxes, electrical boxes, etc.

For more information about the various products listed above, please visit www.zerust.com or contact us at +1 (763) 225-6600.
