

Zerust® ICT® 420-35 Paper

TECHNOLOGY THAT PROTECTS METAL FROM CORROSION

PRODUCT INFORMATION

Zerust® ICT® 420-35 Paper is a high quality 35# kraft paper that has been saturated on both sides with proprietary Zerust® ICT® vapor and contact corrosion inhibiting formulations to provide a powerful protective shield for ferrous and non-ferrous metals as well as multimetal alloys.

Zerust® ICT® 420-35 Paper has all of the versatility of standard packaging paper, except it is acid-free/pH neutral and provides corrosion protection through both sides of the paper - putting it a step above other packaging papers on the market.

Zerust® ICT® 420-35 Paper is currently used to protect a broad range of industrial products including automotive power train parts as well as electrical components during shipment and storage. Use Zerust® ICT® 420-35 Paper in interleaving applications, to wrap metal materials for shipment or storage, or in any other application where a packaging paper would be used. Zerust® ICT® 420-35 Paper is available in natural kraft paper and polyethylene coated paper constructions, as well as in ferrous, non-ferrous and multimetal formulations.

APPLICATION EXAMPLES

ZERUST® ICT® 420-35 PAPER PROTECTING GEARS FROM CORROSION DAMAGE DURING DOMESTIC SHIPMENT.

FEATURES

- Proven corrosion protection
- Easy-to-use
- Acid-free, pH neutral
- Dual-side protection
- No powder residue
- Recyclable

BENEFITS

- Reduce corrosion incidences
- Improve shipment yield rates
- Save money & resources
- Comes with Zerust® global on-site support

Zerust® ICT® 420-35 Paper provides corrosion protection via both sides of the paper - expanding the application possibilities. Try it in any application where you currently use paper and protect your parts from corrosion damage!

ORDERING INFORMATION

■ AVAILABILITY/PART NUMBER

36" x 200 yard rolls: 300-M-00005

48" x 200 yard rolls: 300-M-00006

Also available in cut sheets. Please call for size and price information.

■ WEIGHT

35 #

■ COLOR

Brown / Natural

■ PROTECTION TYPE

Multimetal corrosion protection capability.

■ PROTECTION LIFE

Six-month protection life when stored outside and properly protected from moisture and other environmental elements. Twenty-four months or more for inside dry storage.

■ SHELF LIFE

Shelf life of 2 years if stored at 85° F or less, out of direct sunlight and in original packaging.

ICT®400 SERIES OVERVIEW: PACKAGING PAPER

Product Name	Protection Type	Construction	Weight	Printing
Zerust® ICT®420-35	Multimetal	Kraft Paper	35#	Yes
Zerust® ICT®420-35P	Ferrous	Poly Coated Paper	40#	No

OTHER PRODUCTS AVAILABLE

ICT® 500 Series: Packaging Films

Our most widely used series of products. A variety of films offer short or long-term corrosion protection for parts and equipment during storage or shipment.

ICT® 600 Series: Rust Removers

Highly effective rust removers for light to severe rust removal. All ICT®600 series rust removers are non-toxic, non-hazardous & non-corrosive.

ICT® 700 Series: Liquid Additives and Coatings

Temporary corrosion protection for parts in-between production processes, during storage, or for added protection to the ICT® 500 series products during ocean shipments.

ICT® 800 Series: Diffusers

Self-contained, portable products that diffuse Zerust® ICT® chemicals to protect metals within enclosures, such as tool boxes, electrical boxes, etc.

For more information about the various products listed above, please visit www.zerust.com or contact us at +1 (763) 225-6600.
