

✔ Zerust[®] ICT[®] Poly VCI Weapon Bags

Zerust[®]/Excor[®] ICT[®] VCI Weapon Bags provide protection against corrosion damage for weapons and accessories in shipping, storage and in-between operations. Thousands of units have proven their performance and reliability in the field. They protect against dust, sand and humidity.

Zerust ICT510-C Weapon Protection Bags are easy to use, light weight, and high strength. The bags provide corrosion protection for years for properly cleaned and stored weapons, parts and accessories during shipment, storage and in-between operations. Simply place clean and dry items into the bag and tightly close. Safe* Zerust Vapor Corrosion Inhibitors (VCIs) saturate the interior and stop rust from forming. The corrosion inhibiting bags come in multimetal and ferrous metal protection formulations in several sizes including large equipment bags.

Zerust Weapon Protection Bags are made from Zerust ICT 510-C poly film—the Zerust industrial packaging product that has proven its performance and safety with thousands of customers worldwide for over 40 years. Zerust Weapon Bags are deployed in the field today as effective protection from rust and sand for military weapons and other equipment. They are proudly engineered and manufactured in the USA.

Application Example

A small pistol bag protects a sidearm from rust, corrosion and dust while keeping it visible and ready to use.

▶ Benefits

Proven corrosion protection

Easy to use in the field

Durable

Transparent design provides visibility to the weapon

Provides safe* and effective Zerust VCI protection.
